

## ATHLETIC EDNA

By Jim Manes

Little Edna was athletic and  
She was a husky child.  
Where'er a baseball game was on  
She very near went wild.  
She often mixed in with the boys  
And kicked a football 'round.  
She loved to run a marathon  
And she could cover ground.  
In tennis, golf and boating, she  
Had girls all beat a block.  
She loved to race; she even had  
A runner in her sock.

P. S.—How do I know? Well,  
that's something else again.

Average of 15 cars stolen a day  
during past month.

## MOTHER AND FIVE CHILDREN PUT ON THE STREET

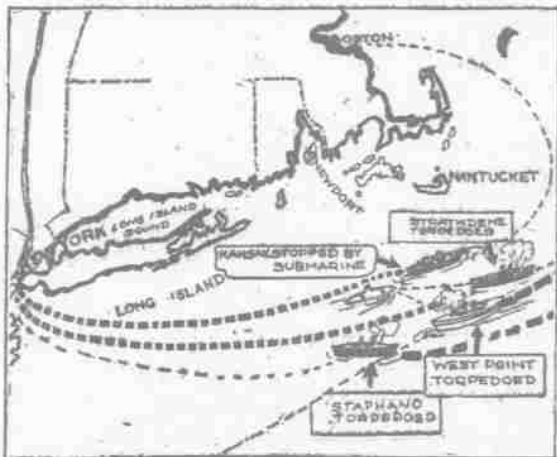

Mrs. Rose Couch with her twin babies, not yet a year old, and her three boys all under 8, was evicted from the cottage which had sheltered the Couch family at 413 N. Kedzie av., when the landlord went into court for the necessary papers Tuesday. Her husband left for help and disappeared.

John Williams, negro janitor at 3151 Franklin blvd., sheltered the woman and her children last night.

Walter Baldwin, 1557 Birchwood st., the landlord, said he was very lenient with the Couch family before he put them out on the street. He says they owe him \$20.

State's att'y filed suit to stop liquor sale by Peter Louzini in Glenview.

## THE U-BOAT ON OUR COAST

This map shows where the U-53 and perhaps other German submarines are sinking merchant vessels off the American coast. Toward this region scores of transatlantic liners are driving, unless all are caught by the

wireless warnings and reach safety at some port in Canada, Maine, Newfoundland or Bermuda. It is seen that the zone of the U-boats' operations is in the direct line of ocean traffic from New York.
